CODE INNOVATORS

Introduction to the website

"CTU Buddy" is a platform designed to enhance life by offering students a space to connect collaborate and uplift one another. Our website acts as a hub where students can easily log in share their ideas swap insights and engage in discussions. Whether you're in search of guidance or simply want to meet fellow students CTU Buddy aims to cultivate a sense of community and camaraderie among students.

CTU Buddy goes beyond communication. It tackles the challenges students encounter when it comes to accessing and sharing resources. With features that enable users to upload and download assignments staying organized with coursework and sharing helpful materials becomes a breeze. Our goal is to foster an environment where learning extends outside the classroom helping students thrive both academically and socially. By streamlining these processes CTU Buddy allows students to focus on what truly matters, making the most of their educational journey and building a support network throughout their studies.
